

Monologue 2

Sometimes I wonder just why God invented time.

Time to take a bath, time to brush your teeth, time to do your homework.

Why is time so important?

We work hard at the clock factory and that old cranky Ms. Curmudgeon is always screamin' at us about how we are wastin' her time!

A kid just can't get a break, ya' see it's not even my time.

Grandfather Clock says that God gave each of us plenty of time and that it's all in how we use it.

I just wish He would have given me a little more time for fun.

(pause)

I guess I better go now, time to get back to work.
